

What's. Growing On...

November 2008

More than just Christmas Trees!

We make it easy to purchase the perfect Christmas tree with our huge selection of Noble, Douglas and Grand Firs. You can also jump into the holiday season by displaying more than just your tree. Check out these festive plants to help create a growing holiday atmosphere:

Pyracantha graberi (above) has decorative red berries, *Liquidambar* (left) is known for its bright, fall-colored foliage, and *Mahonia aquifolium* has nice holly shaped leaves. Live trees, such as Pines, Sequoias and Junipers are also great to decorate and display outdoors.

New Look In Lake Forest

Our Lake Forest location has made some beautiful changes recently. New signs have been

added to mark the different sections in order to make shopping easier. Also, check-out our new selection of succulents at both San Diego and Lake Forest.

“Caring is in our Roots”

Miramar's First Annual Food Drive!

Receive \$10.00 off your next purchase when you donate ten or more items! We are accepting non-perishable food donations for San Diego's charity *Feeding America* and Lake Forest's charity *Orange County Food Bank*. We will have drop boxes at both locations November 17th to December 22nd.
