

What's. Growing On...

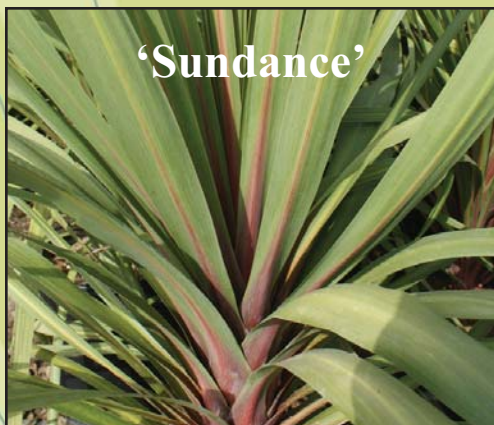

October 2009

Colorful Cordyline

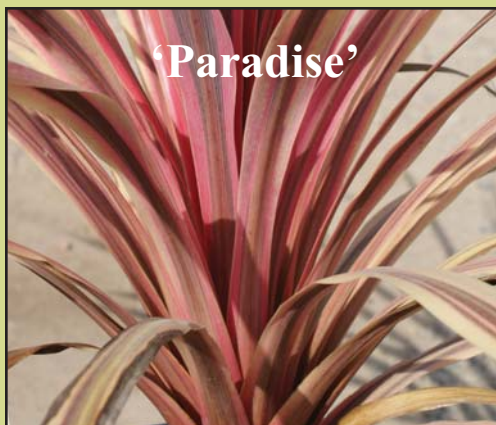

With showy new varieties being introduced all the time, it's no wonder that this vibrant, low-water plant has become so popular. Cordyline offers fountains of sword-like leaves in a variety of interesting colors. Over time it will form a trunk and become palm-like in appearance. It is striking when used in tropical, desert and rock-garden themes.

'Pink Stripe'

'Sundance'

'Paradise'

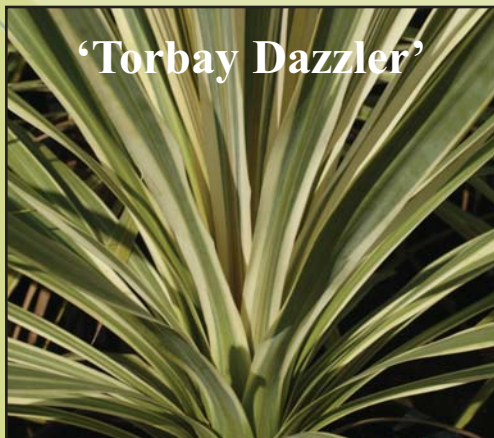

'Southern Spendor'

'Red Sensation'

'Red Star'

'Torbay Dazzler'
